PAPERS

Acquisition of reading and spelling in a syllabo-alphabetic writing system. P.G. Patel and Henry V. Soper ... 69
Adolescents' narrative use of orientations and codas. Christine C. Sleight ... 169
Automatic processing of morphemic orthography by mature readers. Che Kan Leong, Puiwan Cheng and Robert Mulcahy ... 181
Children's comprehension of time-altered sentences. Joseph H. Bochner ... 131
Contribution of speech rhythm and pitch to speaker recognition. Wim A. van Dommelen ... 325
Difference in second-formant transitions between aspirated and unaspirated stop consonants preceding [a]. Bruno H. Repp and Hwei-Bing Lin ... 115
Effects of antecedent distance and intervening text structure in the interpretation of ellipses. A. Garnham ... 59
Effects of linguistic stress on ASL signs. Ronnie B. Wilbur and Brenda S. Schick ... 301
Frequency effects on the processing of ambiguous words in sentence contexts. Margery M. Lucas ... 25
Influence of tones upon vowel duration in Cantonese. Qing-Ming Kong ... 387
Interpersonal influence on temporal measures of vocalization in interview situations. Paul G. Swingle and Gordon F. Hope ... 159
Interpreting elliptical verb phrases at different times of day: Effects of plausibility and antecedent distance. Jane Oakhill and Alan Garnham ... 145
Intonation cues to questions and statements: How are they perceived? Roger Wales and Steven Taylor ... 199
Intonation in English, French and German: Perception and production. Cynthia Grover, Donald G. Jamieson and Michael B. Dobrovolsky ... 277
Irritating expressions in Australian English. Göran Hammarström ... 357
Listeners' evaluations of voice quality in Australian English speakers. Jeffery Pittam ... 99
Long-term spectral measurement of voice quality as a social and personality marker: A review. Jeffery Pittam ... 1
Maidese versus motherese – Is the language input of child and adult caregivers similar? Evangeline E. Nwokah ... 213
Narrative styles of normal first and third grade children. Joan S. Klecan-Aker and Paul R. Swank ... 251
Recursion in development: Support for a biological model of language. Sandra Dickinson ... 239
Review of *Precursors of Early Speech: Proceedings of an International Symposium Held at the Wenner-Gren Center, Stockholm, September 19-22, 1984*, edited by Björn Lindblom and Rolf Zetterström. Susan Nittrouer ... 83
Some effects of context on spoken language production. Robert Pedlow and Roger Wales ... 373
Stimulus considerations in narrative analysis of normal third grade children. Joan S. Klecan-Aker, Gayelene K. McIngvale and Paul R. Swank ... 13

Stress and intonation in the speech of hearing-impaired Hebrew-speaking children. Yael Frank and Moe Bergman 339
Syntactic clause boundaries, speech timing, and stuttering frequency in adult stutterers. Gayle V. Klouda and William E. Cooper 263
Voice identification of prepubertal boys and girls by normally sighted and visually handicapped subjects. D. Günzburger, A. Bresser and M. ter Keurs 47

SUBJECT INDEX

Abstracts 169
Acoustic theory of speech production 115
Adolescents 169
Age differences 357
Ambiguity 25
American sign language 301
Anaphora 59, 145
Antecedent distance (effects of) 59, 145
Aspiration 115
Attitudinal responses 99
Australian 99
Australian English 357
Automaticity 181
ASL 301
Book review: 83
Precursors of Early Speech: Proceedings of an International Symposium Held at The Wenner-Gren Center, Stockholm, September 19-22, 1984 -- B. Lindblom and R. Zetterstrom (eds.)
Breathy voice 99
Cantonese 387
Caregiver language 213
Children 131, 251, 339
Chinese 181
Codas 169
Cohesion 13, 251
Comprehension 131
Concepts 93
Context 373
Creaky voice 99
Devanagari 69
Dyslexia 69
Ellipsis 59
Elliptical verb phrases 145
English 277
Feature detectors 199
Fiction 93
Foreign accent 277
Formant transitions 115
French 277
Frequency effects 25
German 277
Grammar 131
Gujarati 69
Hearing impaired 339
Hebrew 339
Igbo 213
Immersion 277
Intelligibility 339, 373
Interpersonal influence 159
Interview 159
Intonation 199, 239, 277, 339
Irritability index 357
Language (biological model of) 239
Language acquisition 93
Language input 213
Letter to the Editor: 93
Talk and the Teacher: The Role of Story
Lexical access 25
Lexical stress 339
Lexicon 181
Long-term average spectrum 1
Maidese 213
Maternal speech 213
Memory for surface form 59
Mental encoding 59
Morphemic orthography 181
Motherese 213
Narratives 169, 251
Nasal voice 99
On-line processing 145
Oral/written 169
Organisation 13, 251
Orientations 169
Orthography 69
Perceptual differentiation 199
Personality marker 1
Phrase structure 239
Pitch 325
Plausibility (effects of) 145
Precursors of early speech 83
Prepubertal voices 47
Process 239

Production	373
Prosodic elements	339
Prosody	131, 263
Questions	199
Reading acquisition	69
Reading	181
Recursion	239
Redundancy	373
Restructuring	239
Rhythm	301, 325
School-age narratives	13
School-age	251
Sentence processing	25
Sex differences	357
Sign language	301
Social marker	1
Solidarity	99
Speaker recognition	325
Speaker's sex (recognition of)	47
Speech timing	131, 263
Speech	263
Spelling acquisition	69
Spoken language production	373
Statements	199
Status	99
Stimulus	13
Stop consonants	115
Story (role of)	93
Stress	301
Stuttering	263
Syntactic clause boundaries	263
Syntax	263
Teacher-pupil talk	93
Tense voice	99
Text comprehension	145
Text format	373
Time of day	145
Time-altered sentences	131
Tones	387
Vocalization	159
Voice identification	47
Voice quality	1, 99
Vowel duration	387
Whispery voice	99
